

OIT 0044-86
22 JAN 1986

MEMORANDUM FOR: Director of Logistics

FROM: William F. Donnelly [redacted]
Director of Information Technology

SUBJECT: Reorganization of Logistics Function in OIT

REFERENCE: OIT-0005-86

1. After consideration of the suggestions made by Mr. [redacted] concerning the Logistics effort within OIT, I have elected to establish the following organization:

a. All logistics personnel within OIT will be assigned to the Administrative Staff. This consolidation of personnel will enhance coordination of OIT logistics efforts and will contribute to a more consistent approach to PAR preparation for these officers.

b. Although all logistics personnel will be formally home-based with the Administrative staff, several individuals will continue to support specific OIT components. Currently, three officers are assigned to OIT's domestic communications efforts and another is assigned to the Word Processing Branch within Engineering Systems Group. The dispersed officers will be directed primarily by the components they support. PARs for these officers will be prepared or reviewed by C/OIT/Logs after consultation with their immediate supervisors.

2. The issue of an OIT contracting team has been addressed in the memo referenced above. OIT continues to anticipate the establishment of this team which would report directly to the Deputy Director of OIT - Management.

[redacted]
William F. Donnelly [redacted]
